Why Donate Tree?

Trees play an important role in the Village ecosystem. They contribute to the quality of air, reduce noise and visual pollution. They help to moderate climactic change and enhance property values and add to the quality of the life in the Village.

Trees will be planted by the Village of the Pulaski DPW in conjunction with the Tree Committee. The cost of the tree will include the planting, mulching, and maintenance of the tree along with a customized memorial brick placed at the base of the tree.
